***Claim Rejections - 35 U.S.C. § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Presto manual (reference citation AU).

***Claim Rejections - 35 U.S.C. § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2, 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Presto manual" in view of Hoover et al. and Rauh.

Hoover shows that a shears may be easily attached to a belt. It is well known that combination shears and bottle openers as shown by Rauh exist and are useful because of there multiple uses.

The Presto catalogue shows that a bottle opener and a slitter should be attached to a can opener.

Art Unit: 3724

One of ordinary skill in the art would obviously add a sheath and combination shears and opener in place of the more complex system shown by Presto in the device of Presto.

*Claim Objections*

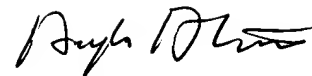

5. Claims 3-5, 7-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mr. Watts whose telephone number is (703) 308-00153.
